General Partner of Summit Midstream Partners, LP Announces Closing of Acquisition of Equity Interests in Ohio Gathering From Blackhawk Midstream

Dallas, Texas (January 28, 2014) – Summit Midstream Partners, LLC (“Summit Investments”), the privately held company that owns and controls the general partner of Summit Midstream Partners, LP (NYSE: SMLP), announced today that it has closed the acquisition of equity interests in Ohio Gathering Company, L.L.C. and Ohio Condensate Company, L.L.C. (together, “Ohio Gathering”) from Blackhawk Midstream, LLC (“Blackhawk”), a joint venture between Gulfport Energy Corporation (“Gulfport”) and Wexford Capital LP.

The acquired equity interests from Blackhawk include an option to increase Summit Investments’ ownership interest in Ohio Gathering up to 40.0% at a price based on the capital invested by the owners at the time the option is exercised. Summit Investments expects to fully exercise this option in the second quarter of 2014. Upon exercise of the option, each of MarkWest Utica EMG, L.L.C. and MarkWest Utica EMG Condensate, L.L.C. will retain its respective 60.0% ownership interest in Ohio Gathering and will continue to operate and develop the gathering infrastructure. Summit Investments intends to offer all or a portion of its interest in Ohio Gathering to Summit Midstream Partners, LP following the exercise of the option and the subsequent development of the assets.

Ohio Gathering owns, operates and is developing significant midstream infrastructure in southeastern Ohio consisting of a liquids-rich natural gas gathering system, a dry natural gas gathering system and a condensate transportation, storage and stabilization facility in the core of the Utica Shale play. Ohio Gathering is supported by fee-based gathering agreements and acreage dedications from producer customers including Gulfport, Rex Energy Corporation and PDC Energy, Inc., which are actively developing Utica Shale positions throughout Harrison, Guernsey, Belmont, Noble and Monroe counties in Ohio. Ohio Gathering’s liquids rich gathering system serves as a critical inlet to MarkWest Utica EMG’s Cadiz and Seneca processing complexes, the largest integrated rich-gas processing and fractionation facilities in the Utica Shale.

Steve Newby, President and Chief Executive Officer of Summit Investments commented, “This announcement marks our first step to position Summit with an equity interest in a premier set of midstream assets located in the core of the Utica Shale. We intend to fully exercise our option and increase our equity interest in Ohio Gathering and maximize our exposure to this important and fast growing basin. We are excited to begin this joint venture partnership with MarkWest and The Energy & Minerals Group and we look forward to playing a role in expanding the infrastructure required to unlock the production potential of the Utica Shale.”

Summit Investments engaged Barclays Capital, Inc. to act as its financial advisor and Vinson & Elkins LLP to act as its legal advisor on the transaction.
